Ahmed Fawzy Metwaly

● **Qalyubia, Egypt**　　　● **+20 01121978506**　　　● **Military status: Exempted**

ahmedfawzy.m1996@gmail.com

Hard-working Computer science graduate. I am passionate for web technologies specifically full-stack developing. I am HTML, CSS, Javascript, jQuery Certified. Qualified at technologies including C++, SQL, object-oriented, Data structure, bootstrap 4, PHP, Larvel. Possess the ability to scale to great extend both in front-end and back-end development. I have recently finished the NTI 6 Months Diploma in web development. I am eager to join a professional company to add more successful projects.

Key Skills

Technical

HTML/HTML5	CSS/CSS3	Bootstrap4
JavaScript	jQuery	MySQL
C++	PHP	JSON
Laravel		

Concepts

Data structure	Object Oriented Programming	Algorithm analysis and design
Database analysis and design		

Languages
➢ Arabic, Native.
➢ English, very good.

Education

- Bachelor's degree in computer and information science Ain Shams University, EG (2018).

Certifications and Trainings

➢ Present Trainee: HTML/HTML5, CSS**/**CSS3, Bootstrap4, Javascript, jQuery, MySQL, PHP, Larvel at NTI.
➢ **Front-End Web Developer Nanodegree** through Udacity.
➢ **Introduction to CSS3** through Coursera.
➢ **HTML, CSS, and Javascript for Web Developers** through Coursera.
➢ **Front-End Development Track - One Million Arab Coders** through Udacity.
➢ **Introduction to HTML5** through Coursera.
➢ ACM: Trainee at ACM and participate at ACM local contest in problem-solving two times.

Projects

Vacuum cleaner robot (Graduation project)
The robot is an autonomous robotic vacuum cleaner which has intelligent programming and a limited vacuum cleaning system the machine clean autonomously without human control using ROS

platform on raspberry pi with using Kinect to take many photos to draw 3d map for navigation and localization using slam algorithms all this on Linux operating system (Grade: Excellent).
